## New member of Ash class...

On Thursday 8<sup>th</sup> October 2020, we found a fire coloured dragon behind the plant in our classroom. On the plant there were fire marks, scratch marks and bites.

We were given a colourful egg then suddenly it disappeared and wasn't an egg anymore! It was a dragon! Henry noticed that the egg had gone but we ignored it.

We started looking after the dragon because it was a baby and if we left it outside it would freeze to death (that we would be sad).

2 weeks earlier Mr Haycock found two eggs but the other egg was given to the other year 3 class next door. We all got a photograph with the very cute dragon but he did look a bit shy.

Right now the dragon is having a lovely time in Mrs Myer's office because we need to learn and it could distract us so she is looking after it. Mrs Myers has a dog so she is good with dragons. The dragon sleeps in the dog bed but not when Lexi is there!

The dragon lives at the school now but we hope that when it grows up it will find a new home. We do not know if it is a girl or a boy but we think it is a boy.
