New member of Ash class discovered

It was a normal Friday morning until Miss Duncan found a beautiful ruby red dragon in a plant near the sink! I was shocked by the fierce look of the dragon because it looked quite vicious.

Mr Haycock found an amazing spotty, sparkly egg on the roof when he was cleaning it. He gave the egg to Ash class to take care of it so it would be safe and no one else

would kill it. If people killed it, there would be no more dragons left in the world because dragons are really rare so it is important to keep it safe.

Some people called 'The Dragon Detectives' found scratch marks, bites and muddy footprints which they think was from the dragon. I was in the crew with Posy, Grace, Daisy and Emma. I was very honoured to be in the dragon detective crew and be doing lots of investigating around the class room. I hope that no one in the world will try to kill the dragon.
