## New member of ash discovered

It was a normal morning until our teacher Miss Duncan found a new member of Ash class but it wasn't a human it was a DRAGON!

A few weeks ago our School Caretaker Mr Haycock found an unusual sized egg on our roof. We put it on our shelf and a week later it disappeared. A boy called Charlie in our class saw claw marks on our plant. It was terrifying but the dragon must have enjoyed the plant because Miss Duncan saw five bite marks on it. We thought he or she was over hungry. People in our class started a dragon detective agency (I was part of it which was cool).

Mrs Myers is taking care of it during lessons but she has a dog called Lexi and when she's at home or not in the

office, the terrifying, ruby red dragon is in her bed. I think Mrs Myers has a good experience with dogs so she will look after the dragon just fine. We are the first class or people ever to find a dragon egg hatching in our classroom. The best thing was when Miss Duncan gasped when she saw the dragon. We thought something went wrong but then we realised she had found a dragon which was very exciting.

"I can't believe we are the first people every to find a dragon egg hatching in the class" stated Miss Dudley.
