DRAGON LOOSE IN LISS

By Hattie Harmel-Law

On Thursday 8th October 2020 Miss Duncan found a dragon behind a plant pot. The red and spiky dragon was in Liss Junior School.

Mr Haycock found a dragon egg on the roof while he was cleaning and fixing it. He brought the spotty, green down and it went missing a few days later. Henry White noticed that it had gone missing. Ash class found it on the metal cabinet after it had gone missing. The baby dragon was naughty because it kept on disturbing Ash class' lessons.

"It was strange it appeared, it was naughty because it was annoying everyone in English," Miss Duncan stated.

Currently, Mrs Myers looks after it upstairs in the dog cage which is normally for Lexi, her dog. It stays up there in lessons a lot to stop it making muddy footprints and eating the class plant. It sleeps in the school and sometimes goes home with Mrs Myers. It sometimes comes into Ash class' lessons.

Ash class hope that the dragon doesn't keep on doing naughty things in the class when they are gone.
