

LISS POST

Dragon loose in liss!

By Johnny Keet

On Thursday 8th October 2020 a dragon appeared in Ash's class room. Miss Duncan was shocked in fear. She said "my goodness, I have never had a dragon in my lesson before."

A few weeks ago on Tuesday Mr Haycock found a dragon egg on the roof while he was fixing the roof and discovered a spiky, large nest with eggs in. The next day Mr White noticed it was gone. "I knew that something must be there because the egg had gone," he stated.

It had never happened before so Ash class was shocked and scared.

Mrs Myers is taking care of the naughty dragon because sometimes it interrupts the children's lessons. She even took a photo of it in her dogs bed!

Ash class will investigate for scratch marks and bites to check if there are any side effects or more dragons.
