## A NEW MEMBER IN ASH CLASS!

One morning in the class room Miss Duncan, our teacher, found a dragon! Every child in Ash class gasped as Miss Duncan found the dragon chewing a plant on Thursday the 8<sup>th</sup> of October 2020. The dragon was bright, red and scaly dragon. He was looking at me with beady eyes.

Two weeks ago Mr Haycock was climbing the roof when he found a beautiful, coloured egg. Mr Haycock showed the egg to Miss Duncan and Ash class because in year 3 we are learning about dragons and he thought we might like it to learn about. One week later it went missing which was noticed by Henry who saw that the egg was missing. After that we found a dragon chewing on a plant during

English. We have never seen a dragon in Liss Junior School before so it is very confusing!

When we found him or her, every member of Ash class was surprised that there was something that had been burning and eating leaves. Mrs Myers is keeping the dragon in Lexi's (the dog) bed whilst Lexi is outside. We hope that the dragon will grow strong and we can keep it until his mum comes to find him (hopefully soon!)
