DRAGON FOUND AT SCHOOL

By Scarlett Atkins-Oakley

On Thursday 8th October 2020 a red, terrifying dragon appeared in Ash class and shocked the children.

The events began when two green, sparkly eggs appeared on the top of Liss Junior School roof. Mr Haycock found the eggs and he gave one to each year three class to keep an eye on. The green, sparkly egg disappeared a week before a member of the class, Henry White, noticed the egg had gone missing. "I was a little bit worried that there was a dragon loose in our classroom because I thought the school would burn down," stated Mr White.

This discovery is very exciting because no one in the world has discovered a dragon before.

The dragon is now in the head mistress, Mrs Myers, office because it's afraid of loud noises and it was opening its mouth and scaring the children. Ash class are investigating to see if there any other dragons in Liss Junior School.
