Dragon discovered

By Ted Healey

On Thursday 8th of October 2020 Miss Duncan found a dragon by the sink in Ash class. She found scratch marks and bite marks on the plant. The children were shocked.

A few weeks before, Mr Haycock found a spotty, medium sized egg on the roof while he was cleaning. He gave it to ash class to keep an eye on it and a few days later Henry saw that the egg was gone. The next day Miss Duncan found a mysterious dragon eating the class plant.

“This has never happened before in a school and I was shocked when I saw it” stated Miss Duncan.

Ash class will keep an eye on it but Mrs Myers is keeping it safe in her office while they are learning so that it doesn't disturb their learning.
